Career Objective

Full Stack-focused Web Developer with experience building data-driven React applications, dashboards, and scalable UI systems. Skilled in JavaScript, TypeScript, React, and API integration, with hands-on exposure to backend systems and real-world product development.

Education

Raghu Engineering College — **July 2020 – May 2024**
Bachelors in Electronics and Communication — 7.7 CGPA — *Visakhapatnam, AP*

Sri Chaitanya Junior College — **July 2018 – March 2020**
Intermediate — 8.78 CGPA — *Visakhapatnam, AP*

Sree Vignan Public School — **June 2017 – April 2018**
SSC — 9.7 CGPA — *Visakhapatnam, AP*

Experience

XIUS — **March 2025 – August 2025**
Full Stack Developer — *Hyderabad, India*

- Built and maintained data-driven frontend features using React and JavaScript, including forms, dashboards, and API-integrated workflows.
- Worked closely with backend services to design frontend logic for authentication, role-based access, and dynamic data rendering.
- Improved UI responsiveness, state handling, and code structure for better maintainability in a fast-paced environment.

Film Cast Pro | *React, Supabase*

- Developed complex, state-driven React components for user profiles, role-basd views, and real-time data updates.
- Integrated Supabase authentication and APIs to handle user sessions, permissions, and dynamic content rendering.
- Designed responsive UI flows optimized for performance and scalability.

Projects

Swadesi Banking | *React, ExpressJS, MongoDB (MERN Stack)*

- Developed a robust full-stack banking application with React for responsive frontend, Express.js for backend, and MongoDB for scalable storage.
- Implemented secure authentication, role-based access control, transaction management, and a dynamic user dashboard for seamless banking.
- Optimized API integrations, ensured cross-browser compatibility, and followed a mobile-first design approach for usability and satisfaction.

Technical Skills

Skills: HTML, CSS, Tailwind CSS, JavaScript(ES6+), TypeScript, Bootstrap, React JS, Angular, Node.js, Redis, Express.js, MongoDB

Developer Tools: VS Code, GitHub, Firebase, Supabase

Achievements

- Full Stack Developer Certification – Dr. Reddy's Foundation
- Provided intensive academic guidance for a student
- Certified Pega System Architect
